Dear Donna,

I bought a house recently with the most able assistance of Chad Tillman. I wanted to share with you my experience of working with Chad.

Most of my friends had warned me about the drudgery of the home search and logistics of firming up the sale. I kept anticipating that stress and drudgery but before I got there, I was already all moved in !! Chad's assistance through out this process has been the key to this most pleasant experience, and probably one of the most important decisions, in my life. His patience and sincerity made him so easy and comfortable to work with. His diligence in doing the best for his clients makes him an exemplary realtor. Through a personal involvement in every aspect of this process, he was very thorough and organized. The support he gave me in even the miscellaneous things was so comforting to enjoy the process in its entirety.

Often he went that extra mile and way beyond what he was expected to do to insure that I had found my "dream home". I am extremely overwhelmed and appreciative of his assistance in facilitating all the resources that were required before, during and after the home search/purchase.

I just wanted to acknowledge Chad's contributions and let you know that you have a STAR on your team !! Under your guidance, your firm is doing a great job because I am sure he needs your support to excel the way he does !!!

Thanks for a great job.

Yours sincerely,

Ravi Natrajan
